

Intelligent Storage™

ADIC Intelligent Storage Solutions

LEADERSHIP

ADIC® is one of the foremost global suppliers of solutions for protecting and managing business-critical data.

As the industry's largest producer of tape libraries for open systems backup*, the company provides protection and security for thousands of terabytes of the world's most important information.

As one of the leading providers of data management software for the enterprise, ADIC helps more than 1,200 IT departments around the world manage their assets more productively.

INTELLIGENCE

ADIC gives IT departments the power of Intelligent Storage™ solutions.

This intelligence lets users integrate disk transparently into backup—without requiring changes in software or procedures. Intelligence lets a library proactively check the whole environment so that administrators can fix problems before the backup starts.

And intelligence builds policy-based data management environments that automatically move data to the right resources as its business value changes.

"IT WAS THE ONLY SYSTEM WE FOUND THAT INTEGRATED ELEMENTS OF END-TO-END DATA MANAGEMENT INTO A SINGLE UNIFIED SOLUTION. AND IT WORKS BEAUTIFULLY."

-Air Force Research Lab

CUSTOMER FOCUS

ADIC continues to be one of the fastest-growing storage companies in the world by constantly looking for better ways to solve challenges—making jobs easier and systems more efficient, and saving customers both time and money.

ADIC's comprehensive service approach, iSurety,[™] leverages advanced data access and diagnostics technology to resolve backup issues faster and at lower cost. iSurety links ADIC's service teams and resources with our customers, and provides rapid remote access to diagnostic data from ADIC systems and our customers' storage ecosystems to deliver fast and accurate system-wide issue resolution.

ADIC's Global Services Team—helping customers in more than 180 countries—specializes in support for open systems data protection, and is committed to providing the kind of proactive, rapid-response, multi-vendor support needed in today's heterogeneous environments.

Everyone on the ADIC team, from professional services and key account groups to channel partners, is committed to cutting through red tape, eliminating delays, and getting the right customer solutions quickly into place.

> THE ADIC EXPERIENCE

"NO OTHER COMPANY WE DEAL WITH PROVIDES SUCH SERVICE AND SUPPORT. EVERY REQUEST AND QUESTION WAS ALWAYS MET WITH AMAZING RESPONSIVENESS."

-Microsoft

"ADIC'S FLEXIBLE DATA STORAGE SOLUTIONS HAVE HELPED LANDESBANK MOVE FAR BEYOND THE BOUNDARIES OF TRADITIONAL APPLICATIONS TO HELP US DELIVER NEW AND BETTER SERVICES TO MEET THE NEEDS OF OUR CUSTOMERS."

-Landesbank
